

Digital entrepreneurs from Armenia! – Apply now for international award!

Get the WSA quality seal of the world's best in digital innovation for the UN SDGs

WSA is a nomination-based award system with a focus on digital innovation with social, local impact and the aim to contribute to the UN SDGs.

Submissions for WSA 2022 can contain all mobile and web-based applications, such as: apps, webpages, applications for wearable's, kiosk installations, SMS based products, platforms and data initiatives. There is no limitation regarding the platforms or technology the projects work with.

[More here...](#)

Nominations to the international WSA are possible through **national contests** and the selection through the WSA National Experts.

Enterprise Incubator Foundation (EIF) is responsible for the selection and nomination.

[DON'T MISS YOUR OPPORTUNITY TO BECOME THE NEXT WINNER!](#)

WORLD SUMMIT SPECIAL CATEGORY

[WSA YOUNG INNOVATORS](#)

youth taking action on the SDG's | strictly for people under or 26

Recognizing digital innovation with high impact on society

As a UN based initiative, the World Summit Awards select and promote the world's most outstanding digital content. "Today, our world is almost entirely connected. But in this ocean of products and services, quality content is hard to find, and local solutions have a hard time to compete with mainstream solutions", states WSA Chairman Peter A Bruck. "WSA provides the answer to this issue, by promoting local content with global relevance."

The WSA Global Congress

After the national pre-selection period, a jury of eminent experts will come together to evaluate the submissions and select the 40 best products from among hundreds of national nominations and the 5 best WSA Young Innovators.

The winners will present their products at the WSA Global Congress. The event will offer a platform for high level experts, industry leaders and government representatives to discuss digital innovation.
